

prompt attention. P. O. address Mr. Cullen

THE STORM'S RAVAGES.

THE ELEMENTS THE LORDS OF MIS-
RULE EVERYWHERE.

The Atlantic Coast the Scene of Devastation and Ruin—Many Cities and Towns Inundated—Coast Line Changed—Snow Slides—Notes.

NEW YORK, Feb. 18.—Heavy rain and high wind has caused an unusually high tide in the harbor. Considerable damage was done by flooding along the river front. On Long Island the tracks of the Long Island and Montauk railroads were in many places submerged and trains were delayed. At Far Rockaway the tide came nearly up to the big hotel and several small buildings were swept away. At places on the north shore damage was broken, causing heavy damage to property. The storm was severely felt in Westchester county.

The Hudson river was higher than it has been for years. Poughkeepsie, New York and other places report damaging floods. The low lands on the New Jersey river front, extending back for miles, were completely submerged, and travel was rendered very difficult.

At Coney Island nearly all the small pavilions and other buildings adjacent to the large hotels were carried out by the tide. Many people went down from the city by rail to see the effect of the storm upon the ocean. The big music stand in front of the Brighton Beach hotel was saved by the hotel manager anchoring it with big cables. The outline of the beach will be permanently changed in many places. The Harlem river rose and caused a freshet, and considerable damage in New Brunswick and Texas.

At Cape May there was a fearful storm which caused much loss of property along the beach. The damage at Atlantic City will exceed \$100,000. At Absecon ice was piled over the railroad tracks, destroying them and interrupting communication.

A fierce nor'easter gale at New Haven caused the waves to sweep away the small buildings along the water front and at the pleasure resorts. In Philadelphia and Camden the water was higher than has been known since 1870. The wharves were damaged and traffic on the harbor and Pennsylvania roads interfered with. Most of the shipping in the port regions was obliged to stop work. Through out northern New York snow nearly stopped railroad travel.

Snow Slides.

SALT LAKE, Utah, Feb. 18.—Another snow slide occurred in Canyon Park gulch, near Brigham, Saturday. The Fresno river, consisting of a ten stump mill, housing machinery, etc., were carried away and the fragmentary remains scattered over the gulch. A number of men for the treatment of gold ore was also demolished. Eight men were at work in Fresno tunnel, but none were injured. In the ascent of the heavy snow no relief has gone to Alta, the seat of the great snow slide of Saturday. A rushing wind was used to get up a relief corps, and volunteers were called for to go to the scene. A party of fifty picked men will stay to force their way through it can be done.

High Tides.

PHILADELPHIA, Feb. 18.—The tide in the Delaware river was the highest known since February, 1891, and in many places the water overflowed the wharves and done considerable damage. The flood is due to the heavy snow and rain of the past few days and the immense quantity of ice in the river. Although the ice is very heavy, it is a shen and rather by the tide and snow crumbles under the jostles of the ferryboats.

Inundated.

ELKTON, Md. Feb. 18.—The giving way of the levee in the Big and Little Elks caused this town to be partially inundated. The flood swept everything before it. Large quantities of lumber owned by Wm. Singletary of Philadelphia was carried off. Boat houses were crushed like egg shells. A ship was set adrift in the center of Water street. The town is in distress owing to the gas works being stove out.

Snow Drifts.

UTICA, N. Y., Feb. 18.—Snow commenced falling early Monday morning and is now ten feet deep on a level. All east bound trains on the Central are ordered to remain here until further orders. Large gangs of snowshovels are trying to open the road to Albany and it is thought they will succeed within a few hours.

Snowed In.

SPRINGFIELD, Ill., Feb. 18.—Owing to the absence of many members who went home Friday and Saturday and are now bound being done by the legislature, a joint session. The situation is precisely as a week ago.

A Fierce Gale.

CHICAGO, Feb. 18.—Dispatches from the northwest report the most severe storm raging. The weather is very cold and the wind blowing a gale.

Cellars Flooded.

PROVIDENCE, R. I., Feb. 18.—The storm has flooded many cellars and stores. Steamers are pumping them out. The damage is heavy. The river is still rising.

The Polish Convention.

LA CROSSE, Wis., Feb. 18.—The second day's session of the national Polish convention was largely attended. The snow-bound delegates having succeeded in reaching the city. The proposition to remove the seat of the central government from Chicago to Philadelphia or New York was defeated.

The Whisky Pool.

CHICAGO, Feb. 18.—An important meeting of the modern whisky export association is in progress at the Grand Pacific hotel. It is proposed to reduce the percentage of production to twenty-four, and unless this is accomplished it is thought the pool will go to pieces.

Brewers' Convention.

CHICAGO, Feb. 18.—A large number of brewers from all parts of the country have arrived to attend a conference to discuss the relation of manufacture. It is said that unless the production can be curtailed, a number of prominent brewers will abandon the pool.

A Verdict.

AKRON, O., Feb. 18.—The jury in the case of John McMillen, who killed Joe Walsh, November 29 last, in a saloon row, have brought in a verdict of murder in the second degree.

UO. R. HOMER. M. J. MCINTYRE.

Rosser & McCarthy,

Publishers of the

DAILY and WEEKLY

BULLETIN.

THE DAILY BULLETIN will contain each day a record of the movements of the great political parties, paying particular attention to political matters in the County and Congressional District; and in the NEWS SECTION will strive to keep its readers posted on all matters of general interest, giving the news in a condensed form, but the more important matters will be treated at length. As a medium for LOCAL NEWS it is unsurpassed, having in this and adjacent counties a corps of active and intelligent correspondents, who promptly furnish an accurate account of all occurrences of interest in their respective localities. THE MARKET REPORTS, which are furnished expressly for the BULLETIN, will give the latest information, that may be looked upon as reliable.

The BULLETIN

is a home journal for all, and with a large and firmly established circulation, it offers unparagoned facilities to advertisers who desire to reach the home circle, where customers and patrons are gathered together in their leisure, and at times when they are at ease and most likely to read advertisements.
